Allay Micro Preemie
50-ct: cat. No. NT-HBMP-050

Allay Preemie
0.85mm / 1.75mm

50-ct: cat. No. NT-HBPR-050

Features & Benefits:

- “Sweeping” blade incision causes less trauma than “Puncture” type devices
- available in different depths/widths of cut for individual needs
- single-use only, auto-disabling to prevent unwanted sharps injuries
- arrow on bottom helps accurately align target area
- patented ergonomic anti-slip grip helps reduce chance of unwanted bruising
- easy-to-remove safety tab prevents firing prior to use
- sterile, individually packaged, non-porous material
- custom colors and packaging available for Private Label

U.S. Patent No. D728,787 © Intrinsyk, LLC
Other U.S. & international patents pending.

STERILE | EO
